

# GORING GAP LOCAL HISTORY SOCIETY

## TRANSPORT HISTORY GROUP OUTING Friday 24 April 2020 to the Silverstone Experience, Silverstone, Northamptonshire NN12 8TN

We will be following in Royal footsteps - it is he

The pale green Dinky Toy like ERA is a replica and can be sat in

**What to expect** Travel by coach to this superb new state of the art museum/interactive experience set in a converted wartime hangar on historic Silverstone Racetrack This is not just about cars. There are displays on the early history of the area, the wartime bomber airfield (lots on Wellington Bombers), the early amateur post war motor sport boom right up to modern hi tech motor racing. Superb virtual reality features enable you to experience a lap of the circuit and the chaos of a Grand Prix start. You can even see how quickly you could change a wheel and have a go in a WW2 Link Trainer. Lots of science too. And you can go outside for a healthy walk round the original racetrack. I have timed the visit so there may be some track activity for the Touring Car weekend.

**Getting there** Leave Goring station at 0900 picking up earlier at Shillingford and South Stoke as usual should get us to Silverstone at c1030

**Return** I am planning on leaving at 1500 which will see us home about 1645

**Costs** The coach will cost us £22 per head. The visit, plus tea, coffee and pastries on arrival and lunch will cost £28 each.

**Food and drink** There is a more than adequate modern café. I have ordered coffee/tea/pastries on arrival and for lunch a hot fork buffet with soft drinks.

---

**Please complete the slip below payment confirms your place. Cheques payable to GGLHS**

**GGLHS Transport Group visit The Silverstone Experience 24.4.20**
